

# VESTA MULTI-FACTOR AUTHENTICATION

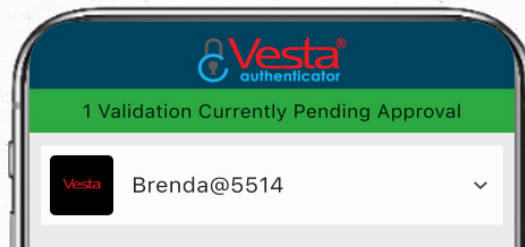

## GETTING STARTED

1. Download Vesta Authenticator from your smartphone's Apple App Store or Google Play Store.
2. Open Vesta Authenticator from your smartphone and click the add account icon. 
3. Log into Vesta from your computer with your username and password.
4. Use Vesta Authenticator from your smartphone to scan the QR Code displaying in Vesta after logging in.

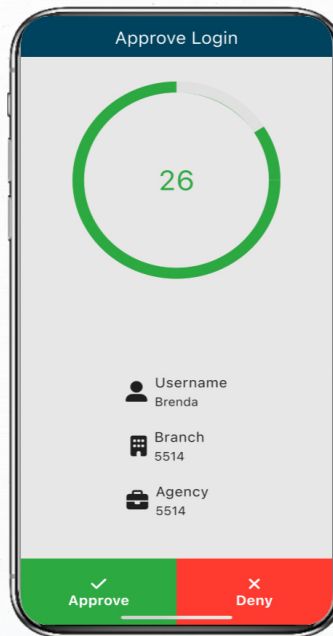

### Vesta Authenticator

1. Log into Vesta from your computer with your username and password.
2. Open Vesta Authenticator from your smartphone and select **Validation Currently Pending Approval**.

3. Within 30 seconds, select **Approve**.

### Six-Digit Code Option

1. Log into Vesta from your computer with your username and password.
2. Open Vesta Authenticator from your smartphone and click the drop-down arrow next to your username.
3. In Vesta, click the option **Enter Code Manually**, enter the six-digit code displaying in Vesta Authenticator, and select **Continue**.

### Email Option

1. Log into Vesta from your computer with your username and password.
2. In Vesta, click **Receive Validation Code via Email** and **Send Code**.
3. Review the email in your inbox and retrieve the Validation Code.
4. Enter the validation code in Vesta and select **Continue**.
